BOX TRAIL KNIFE

Model No. OST-12SS 12", OST-14SS 14", OST-16SS 16"

Benefits:

- Designed to run behind mud boxes to smooth out edges and eliminate bubbles and ripples on walls and ceilings
- Using a Box Trail Knife eliminates the need for brushing (sanding) between coats
- No special poles or handles needed, attaches to any common pole with threaded end
- Lightweight to prevent fatigue

Additional Features:

- Threaded handle for attaching to pole
- Available in 12" 14" and 16" lengths
- 14" knife great for following behind flat boxes up to 12"
- 16" knife should be used for 12" and 14" flat boxes
- Made in the U.S.A.
