Contoured Plastic Mud Pans.	17
Patch Pan	17
Plastic Bladed Mud Pan.	17
Spot Weld Mud Pans	17
Stainless Steel Heliarc Mud Pans	17
Corner Bead Applicator	18

TAPING BANJOS

Stainless Steel Taping Banjo	20
Stainless Steel Rapid Fill Taping Banjo	20
Semi-Automatic Even Flow Taping Banjo	20

PAINTING

- 3 Grain Comb Set 22
- Check Rollers. 22
- Graining Combs 22
- Graining Roller Set 22
- Quarter Round Grain Tools. 22
- Steel Graining Combs. 23
- Do-All Scrapers 23
- ProReach Spray Shields. 24
- QuickTruss Door Painting Stands 24
- Roller Cleaner 25
- Swivel Pot Hook 25
- Tool & Brush Holder 25

WALL COVERING

MISC. WALL COVERING

- Double Edge Blades 25
- Seam Buster 25
- Paste Syringe. 26
- Razor Knife 26
- Lexan Smoothing Blade 26
- Shears 26
- Stainless Vinyl Smoother & Trimmer 26
- Vinyl Trimmer 26

SEAM ROLLERS

- Plastic Corner Roller. 28
- Plastic Rollers. 28
- Stainless Steel Rollers 28

STRAIGHT EDGES

- Aluminum Plates. 29
- Aluminum Straight Edge with Handle 29
- Straight Edges 29

TABLES & BOARDS

- Folding Paste Tables 30
- Paste Boards 30
- Paperhanging Outfits. 31
- Non-Skid Pair Trestles. 31
- Paste Board Clamps 31

PASTING MACHINES

ADVANCE PASTE MACHINES

- Paste Mate Heavy-Duty Paste Machines . . . 32
- Pasting Machine Booking Tables 32
- Paste-Mate Storage Cases 32
- Paste-Mate Transportation Shelves 32
- Measuring Counters 33
- Pull Box 33
- Qwikpaster. 33

ADVANCE HISTORY

- 100 years of history 34

CORNER TROWELS

COOL GRIP II DRYWALL CORNER TROWELS

- Made with full hard stainless steel & a round-shaped Cool Grip II handle
- Soft overlay attached to square-plated shaft spot welded to blade

Stainless Steel Inside

222SS	90° Corner	4 ½" x 4"
214SC	90° Corner	4" x 2 ½"
214BSC¾	Bullnose ¾" radius	4" x 2"

Stainless Steel Outside

223SS	90° Corner	4 ½" x 4"
215SC	90° Corner	4" x 2 ½"
215BSC¾	Bullnose ¾" radius	4" x 2"

FLEXIBLE CORNER TROWEL

"Eagle Wing"

- Upper angle designed for 3 way corners
- Radius corners for a smooth finish
- Designed to imbed tape & feather internal angles out
- Flexing the sides

228SS

Flexible radius edges prevent gouging of 3 way corners

PIE SHAPED KNIFE

- Stainless Steel Blade
- Angled shaft to keep hands out of substrate
- Short handle fits into tight spots

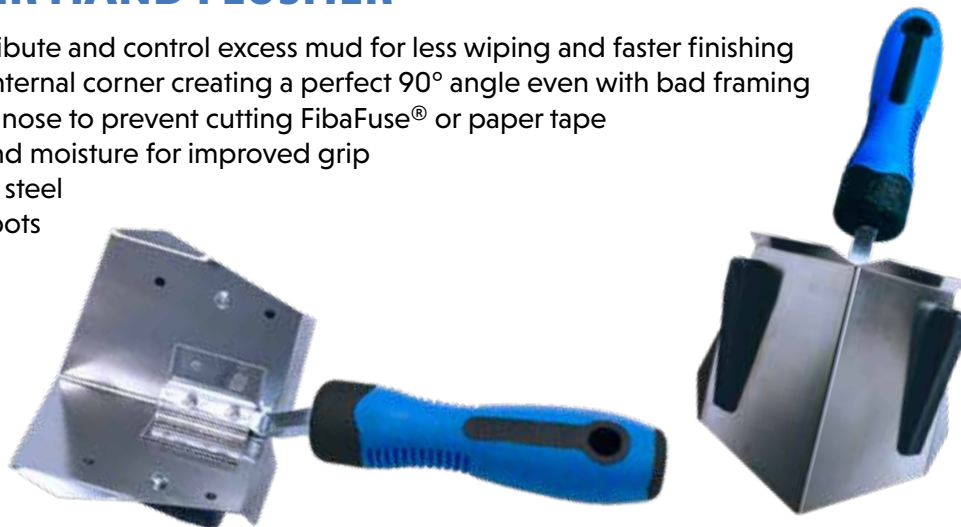

233SS

INSIDE 90° CORNER HAND FLUSER

- Skids and wings evenly distribute and control excess mud for less wiping and faster finishing
- Embeds joint tape into the internal corner creating a perfect 90° angle even with bad framing
- Designed with subtle radius nose to prevent cutting FibaFuse® or paper tape
- Handle material reduces hand moisture for improved grip
- Made with full hard stainless steel
- Short handle fits into tight spots

224SS

DRYWALL KNIVES

ADJUSTABLE WIPEDOWN KNIVES

- Multi use long handle wipedown knife features an adjustable angle blade attached to an 18" plastic handle threaded for an extension pole
- Easy, adjustable angle blade lock
- Hardened Stainless Steel

Adjustable Wipedown Knives

38007	7"
38011	11"

ALUMINUM BACK DRYWALL KNIVES

- Flexible lacquer dipped blue spring steel held in aluminum mounting
- Available with 16" wood handle or 6" & 18" broom threaded end plastic handle

Blue Steel - 6" Plastic Threaded Handle

AL18-46P	18"
AL20-46P	20"
AL24-46P	24"

Blue Steel - 16" Wood Long Handle

AL14-4LH	14"
AL16-4LH	16"
AL18-4LH	18"
AL20-4LH	20"
AL24-4LH	24"

Blue Steel - 18" Plastic Threaded Handle

AL18-44	18"
AL20-44	20"
AL24-44	24"

KNOCKDOWN DRYWALL KNIVES

- Clear polycarbonate that is flexible and durable, with ½" radius corners for seamless application
- Ideal for drywall, EIFS, acoustical work & a wide variety of textures
- 6" plastic handle with a threaded end for an extension pole

Knockdown Knives

K5	5" x 6"
K12	12" x 12"
K18	18" x 12"
K24	24" x 12"
K36	36" x 12"

Angled Knockdown Knife

K22A	22" x 6"
-------------	----------

OFFSET DRYWALL KNIVES

- Innovative offset design, allows for better control and pressure
- Stainless steel counter sunk rivets
- Available in lacquer dipped blue steel or polished stainless steel blade

Blue Steel

OSG-8	8"
OSG-10	10"
OSG-12	12"
OSG-14	14"

Stainless Steel

OSG-8SS	8"
OSG-10SS	10"
OSG-12SS	12"
OSG-14SS	14"

RADIUS SKIMMING BLADES

- Stainless Steel blade shaped to hold mud making it ideal for skimming patchwork or achieving a level five finish
- Prevents fatigue, less bending down to switch tools when skimming or patching
- Achieve the same results as larger smoothing blades
- Single hand use for a natural drywall finishing feel
- Use behind finishing boxes for less sanding
- Radius edges prevents gouging of mud

Radius Skimming Blades

SB-10	10"
SB-12	12"
SB-14	14"
SB-16	16"

SLIMLINE TEXTURED DRYWALL KNIVES

- Flexible blue spring steel, lacquer dipped or stainless steel held in aluminum rib
- Sturdy textured plastic black handle is molded directly to the blade
- Lightweight, slim version of the textured handle #34006 series knives

Blue Steel

34406	6"
34408	8"
34410	10"

35010	10"
35012	12"
35014	14"

COOL GRIP II TAPING KNIVES

- Contoured soft grip handles for comfort for drywall professionals
- Flexible blue spring steel, lacquer dipped or stainless steel held in aluminum rib
- Soft overlay molded to newly designed smaller polypropylene handle is riveted directly to blade
- Handle surface reduces hand moisture to improve your grip
- Better ergonomics and less hand fatigue
- Shorter 3" Blade features .015" blade thickness

Blue Steel

36606	6"
36608	8"
36610	10"
36612	12"

3" Blades (SS)

37306	6"
37308	8"
37310	10"
37312	12"

CURVED BLADE DRYWALL KNIVES

- Flexible blue steel, lacquer dipped, held in aluminum mounting
- Available with 16" wood handle or 6" plastic handle with threaded end

Blue Steel - 16" Wood Handle

018-CB	18"
024-CB	24"
026-CB	26"

Blue Steel - 6" Plastic Handle

018-CB6P	18"
024-CB6P	24"
026-CB6P	26"

TAPE & TRAIL KNIFE

- Stainless Steel blade held in aluminum rib
- 8" knife helps embed tape behind an automatic taper or banjo to create a seamless finish & rotating the handle allows for a tighter wipe
- 6" threaded handle can be used with an extension pole
- Bent handle creates the perfect angle for working on ceilings or low spots
- Compact size is perfect to easily spot nails

TT-08SS

TRAILING BOX KNIVES

- Stainless Steel blade with counter sunk rivets
- Provides flexibility for maximum control when working on walls and ceilings
- Designed to run behind mud boxes to smooth out edges and eliminate ripples & bubbles
- 6" threaded end handle can be used with an extension pole
- Angled handle allows for better ergonomics and body position

Trailing Box Knives - 6" Handle

OST-10SS	10"
OST-12SS	12"
OST-14SS	14"
OST-16SS	16"

RADIUS TRAIL KNIFE

- Ideal for skim coating, radius edges prevents lines from edge of knife
- Create smoother walls, radius edge allows you to float into the butt joints while still wet
- Ideal for running behind mud boxes to smooth out edges and eliminate ripples and bubbles
- Features radius edges, a 6" angled threaded handle for pole attachment, and a 16" stainless steel blade

Radius edges prevent gouging

OSTR-16SS

FLOOR & WALL SCRAPERS

DETACHABLE FLOOR SCRAPERS

- Has a 5' detachable steel handle that attaches to steel mounting bracket with plastic grip
- 18" blade made of spring steel

Detachable Floor Scraper

FD18	18" Floor Scraper
FD18B	18" Replacement Blade

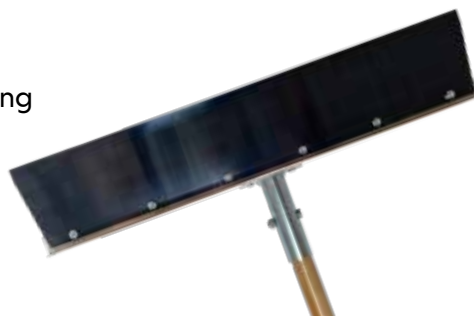

DETACHABLE WALL SCRAPERS

- Has a 5' detachable spring steel blade bolted to aluminum mounting
- Attached to 4' wood pole

Detachable Wall Scraper

WS22PW	22" Wall Scraper
WS22PWB	22" Replacement Blade

FIXED HANDLE FLOOR SCRAPERS

- Features a 5' powder-coated steel handle welded to steel mounting bracket with plastic grip
- Replaceable spring steel blade

Fixed Handle Floor Scrapers

F14	14" Floor Scraper
F14B	14" Replacement Blade
F20	20" Floor Scraper
F20B	20" Replacement Blade

HEAVY-DUTY WOOD OR METAL HANDLES

- Features a steel blade welded to heavy steel mounting bracket with a wood or powder-coated metal handle

Wood and Metal Handles

FP14	14" w/ Metal Handle
FP14W	14" w/ Wood Handle
FP14B	14" Replacement Blade
FP18	14" w/ Metal Handle
FP18W	18" w/ Wood Handle
FP18B	18" Replacement Blade

MISCELLANEOUS DRYWALL

CIRCLE CUTTER

- Calibrated steel shaft gives sharp, clean cuts up to 16" in diameter
- Cutting blade and center point are hardened for long life

AC31

DRYWALL PAIL SCOOP

- Radius on blade allows total removal of drywall mud, mortar, grout, stucco & cement from pail
- Stainless steel blade held in aluminum rib
- Sturdy textured handle is molded directly to the blade

38406

BOX HANGER

- Nest holds a variety of tools, finishing boxes, sanders, skimming blades, and more
- Protect your tools from falling over and being damaged
- Use as tape holder dispenser with easy tear off edge
- Reduce stress on your body by keeping tools at arms reach
- Holds finishing boxes in place for filling with compound tube
- Flexible mounting system, attach to scaffold, a gang box or the wall
- Strong and thick steel with black powder coat finish
- Includes bracket, threaded bolt, and tightening handle

C1644

DRYWALL FINISHING STATION

- Functions as a toolbox, wash station, mud filling station, and tool holder
- Collapsible with a one-piece fold-up design for easy transportation
- Move your workstation with you, keep your tools and materials organized and out of the way
- Work faster by eliminating trips back and forth to fill up on mud, cleanup, or grab the next tool
- 24" wide wash station makes it easier to clean tools than using traditional mud bucket
- Adjustable height tool holder reduces bending and reaching even with stilts
- Tote bin holds tools for transportation to and from job sites
- Tool holder designed to hold mud boxes, finishing knives, and more
- Easy rolling wheels with lock

IR37

MORTAR SCRAPER

- Mortar scraper is used to clean dried excess mortar off the face of bricks
- Cold rolled steel robotic welded to steel base
- Comfortable wood handle attached to steel base

MS200

UTILITY SAW

- Hardened and tempered steel blade with bevel filed teeth to prevent clogging
- Blade 6", overall 10" (Imported)

US21

MUD JAM CLEAR TOOL

- Easily clears paper or mud jams in tape guide while using an Automatic Taper

34491

SCARIFIER

- 12" blue steel tines with a Cool Grip II handle
- Soft overlay molded to polypropylene handle is riveted directly to the blade

36112

ANGLED MINI LIFTER

- Lifts and holds drywall sheet in place while nailing or using screw gun
- Welded steel construction with a durable powder coat finish
- Fits in pocket or tool belt

ML95

RIGID LIFTER

- Allows one person to lift board up to 3"
- Heavy steel construction with durable powder coat finish
- Fixed fulcrum lifts board against wall and the ribbed back stiffens lifter

RL94

ROLL LIFTER

- Allows one person to lift board up to 3"
- Heavy steel construction with durable powder coat finish
- Roller-wheel moves board against wall

RL93

PAN AND TAPE HOLDER

- All aluminum, light-weight construction, hooks to belt to easily scoop mud from the pan and hands stay free to work
- The hook below pan will hold a roll of tape
- Pan and Tape not included

PH12

TAPE HOLDER

- Steel tape holder plated to resist rust
- Holds up to 500" roll of tape and hooks onto belt

TH50

TAPE HOLDER WITH TENSION HUB

- Tape roll fits snugly on adjustable tape tension hub
- Steel tape holder plated to resist rust
- Holds up to 500" roll of tape and hooks onto belt

TH57

THERMOPLASTIC DRYWALL SANDERS

- Injection-molded from reinforced tri-polymer thermoplastic resin for heavy-duty use

Drywall Sanders

3200	Tri-poly Thermoplastic Pole Sander Head
3210	Tri-poly Thermoplastic Hand Sander

UNIVERSAL SANDERS

- Strong, but lightweight aluminum base, strongly bonded rubber pad, and wing nuts to tighten sandpaper clamps
- Male threaded swivel head allows you to reach all corners
- Available with 4' metal or wood pole (Imported)
- Sander head adapter converts broom handle thread to fit Universal sander

Universal Sanders

K-318	Sander w/ 4' metal handle
K-318W	Sander w/ 4' wood handle
K-318H	Sander head only

Handles and Poles

SH4	4' metal handle
SH5	5' metal handle
WSH	4' replacement wood pole

HAND SANDER

- Classic wooden handle drywall hand sander with wing bolt clamps

441

BOOMERANG MIXER

- Radius on leading-edge helps prevent pail gouging
- Heavy-duty 28 7/16" hex shaft
- Mixes inward from top to bottom to prevent splashing
- Pail Saver Tip eliminates pail gouging

BR716

EASY DRYWALL MIXERS

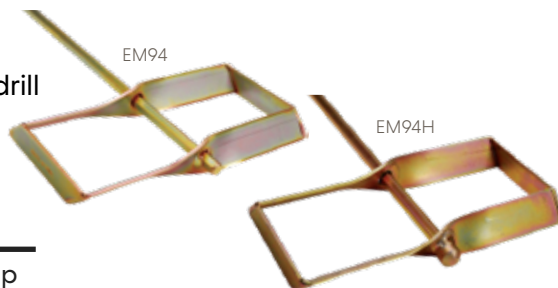

- Zinc-plated to resist rust and a 3/8" hex shaft for 1/2" slow speed drill
- For mixing paint, mud, texture, cement, etc
- Pail Saver Tip eliminates pail gouging.

Easy Mixer

EM94	Mixer w/ 28" shaft
EM95	Mixer w/ 36" shaft

Mixer with Pail Saver Tip

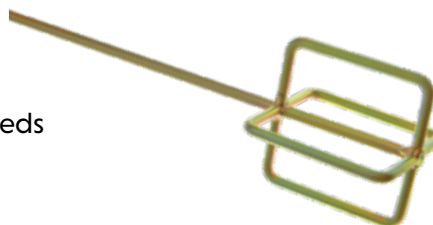

EM94H	28" shaft w/ Pail Saver Tip
EM95H	36" shaft w/ Pail Saver Tip

EGGBEATER DRYWALL MIXER

- Yellow zinc-plated heavy-duty solid steel
- 28 3/8" hex shaft mixer is used with 1/2" drill for slow mixing speeds
- Mixes thin set, grout, and concrete.

EB28

FAN BLADE MIXER

- Zinc-plated & welded to a non-slip steel hexagon shaft for durability
- 3/8" hex, 24" shaft for 1/2" slow speed drill
- Available in adjustable or fixed position

Fixed Fan Blade

FM24	2 Blade Mixer w/ 24" shaft
FM24A	2 Blade Adjustable Mixer w/ 24" shaft

MUD PAN MIXER

- Special blend polypropylene blade for durability
- 1/4" x 11" round shaft fits any standard drill
- Perfect for mixing in the mud pan for quick patch and repair jobs

EMP12

POLYPROPYLENE MIXER

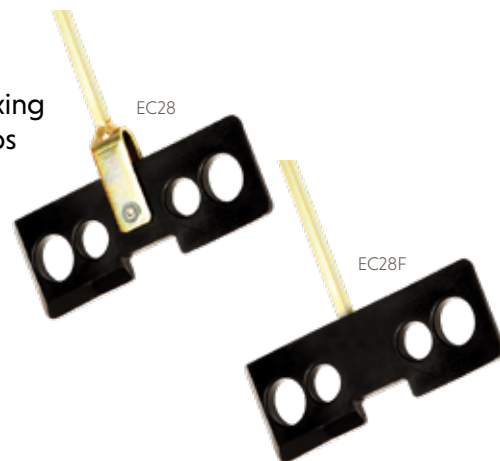

- Special blend polypropylene blade eliminates bucket/pail gouging
- $\frac{3}{8}$ " x 28" hex shaft is zinc-plated to resist rust and fits any standard drill

EMP94

TORNADO POWER MIXERS

- For mixing paint, mud, texture
- Eliminates bucket/pail gouging due to polypropylene on plastic mixing
- Easy flow design allows for smooth and proper mixing without lumps
- Pivoting paddle acts as a squeegee to pull material off the sides of bucket while mixing material in an upward motion
- Compound cleans off high-tech plastic easier and faster than a traditional mixer

Pivot Blade

EC28	Mixer w/ 28" shaft
EC36	Mixer w/ 36" shaft

Fixed Blade

EC28F	Mixer w/ 28" shaft
EC36F	Mixer w/ 28" shaft

MUD PANS

CONTOURED BOTTOM HELIARC MUD PANS

- Top edge sheared to clean knife
- Heliarc weld prevents leaking and features smooth tapered ends and sides
- Smooth contoured bottom fits naturally in the hand, allows material to be scooped from the pan easily

10HR

10HRG

The "No Slip Grip" allows you to hold the mud pan upside down!

Contoured (non-grip)

10HR	10"

CONTOURED PLASTIC MUD PANS

- Two steel blades on edge of pan to clean your blade
- Contoured bottom fits naturally in the hand with textured side to prevent slippage

Contoured Plastic Mud Pan

12PR	12"
14PR	14"

PATCH PAN - 6"

- Ideal for all compounds and use with 1"- 6" knives
- Built in wiping blade to clean knife
- Contoured bottom fits naturally in the hand with textured sides to prevent slippage

6PR

PLASTIC BLADED MUD PAN - 12"

- Heavy-duty 12" Mud Pan
- Two steel blades on edge of pan to clean your blade
- Comfortable 2¾" bottom with textured sides to prevent slippage

12P

SPOT WELD MUD PANS

- Tapered ends and sides
- Spot welded with sheared sides to clean knife easily
- Available in both Galvanized or Stainless Steel

Galvanized

STAINLESS STEEL HELIARC MUD PANS

- Smooth tapered ends and sides with sheared top edge to clean knife easily
- Heliarc weld prevents leaking

Stainless Steel Heliarc

10H	10"
12H	12"
14H	14"
16H	16"
18H	18"
24H	24"

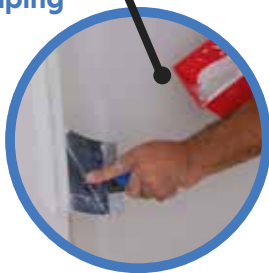

CORNER BEAD APPLICATOR

- Dispenses a perfectly even amount of mud along the entire length of a corner bead
- Mounting notches for securing it into place for use on larger projects
- Rigid wiper dispenses the ideal amount of mud while wiping the face of the bead clean
- Works with all mud on paper-faced corner beads
- Mounting notches for securing it into place
- Keeps installation clean and fast
- Fits in the palm of your hand for ease of use
- Eliminates the challenges of installing corner bead

6CBA

Can also be used as a mud pan with a taping knife to cleanup corner beads

Features two mounting notches to firmly secure it in place

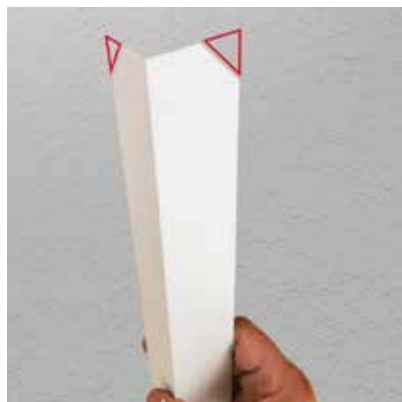

Rigid Wiper Opening creates ideal amount of mud

HOW TO USE

Step 1:

Trim corner bead insertion end at a 45° angle as shown

Step 2:

Open paper corner bead & insert into the slotted end with tabs

Step 3:

Guide through at an even pace

Pro Tip:

- Make sure to keep the guide notch clean from dried mud
- Must premix compound to pudding consistency & ONLY use paper-faced corner beads

USA MADE
Since 1922

Corner Bead Applicator

Page 18

TAPING BANJOS

STAINLESS STEEL TAPING BANJO

- Speed Wheel is adjustable to your tension preference and controlled with locking wing nut to adjust flow without backspin
- Tape fits securely on adjustable tension spool and flows smoother
- Adjustable strap with thumb rest allows right or left-handed use
- Thumb screw for mud adjustment
- Complete with wood handle
- Holds 500' roll of tape

4617

STAINLESS STEEL RAPID FILL TAPING BANJO

- Features a bottom-mounted Filler Valve that allows for quick filling with a standard automatic taping tools loading pump and filler
- Speed Wheel allows for tension preference on tape delivery
- Holds 500' roll of tape.

4618

SEMI-AUTOMATIC EVEN FLOW TAPING BANJO

Corner Wheel

- Embeds FibaFuse® and paper tape into corner without splitting
- The first stainless steel banjo designed for FibaFuse®
- Treads on roller pull and guide tape without tearing
- No tools or attachments needed, a quick flip runs flats and corners

Curved Belly Design

- Eliminates skipping and dry spots on tape
- No wasted mud left in banjo, runs till the end
- Ideal for use with FibaFuse® or paper tape
- Thumb screw adjusts mud thickness
- Tension controlled Speed Wheel with locking wing nut to adjust flow without backspin
- Holds up to 500' roll
- 60 oz. load capability

Semi- Automatic Even Flow Taping Banjo

4620	Semi-Automatic Even Flow Taping Banjo
4621	Semi-Automatic Even Flow Taping Banjo w/ Cutter

Patent: No. US 10,308,468 B1 Patent: No. US 10,458,129 B1 Patent: No. US 10,557,274 B2

Page 20

PAINTING

3 GRAIN COMB SET

- 3 different size teeth to create a variety of grain or comb designs

903

CHECK ROLLERS

- Used to create vertical straight line random check marks in the oak grain, giving the look of realistic pores

Check Rollers

135	2"
136	3"
137	4"

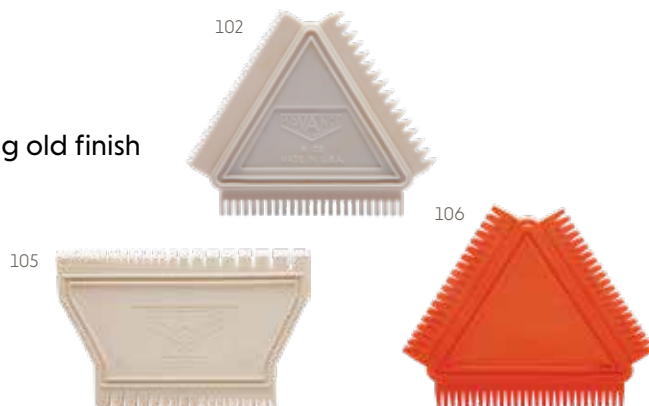

GRAINING COMBS

- Create a grain effect on any surfaces without removing old finish

Graining Combs

102	Rubber Comb Triangle
105	Solid Rubber Graduated Comb
106	Fine, Medium, and Coarse

GRAINING ROLLER SET

- Three different rubber rollers to create different graining effects
- Three-piece set with two foam cores in polybag with header
- Single Rubber roller on wood core set in wire frame

Graining Rollers

303	5" long, 1½" diameter set of 3
315	Single Rubber roller in wire frame

QUARTER ROUND GRAIN TOOLS

- Valuable and handy tool produces beautiful heart grain wood effects
- Rubber corrugation mounted on quarter round block

Quarter Round Grain Tool

104	3"
107	5"

STEEL GRAINING COMBS

- Made of blue steel
- Fine, medium, and coarse combs in 1", 2", 3", & 4" widths
- 12 piece set packed in individual box

134

DO-ALL SCRAPERS

- Sturdily made of heavy gauge plated tempered steel
- 4" blade is beveled
- Can be used for: drywall taping, a paint trimming guide, spray masking, stripping & scraping, and a wallpaper trimming guide

Do-All Scrapers

DA-12	12"
DA-20	20"
DA-30	30"

**MANUFACTURING
EXCELLENCE
SINCE 1922**

PRO REACH SPRAY SHIELDS

Extended Reach

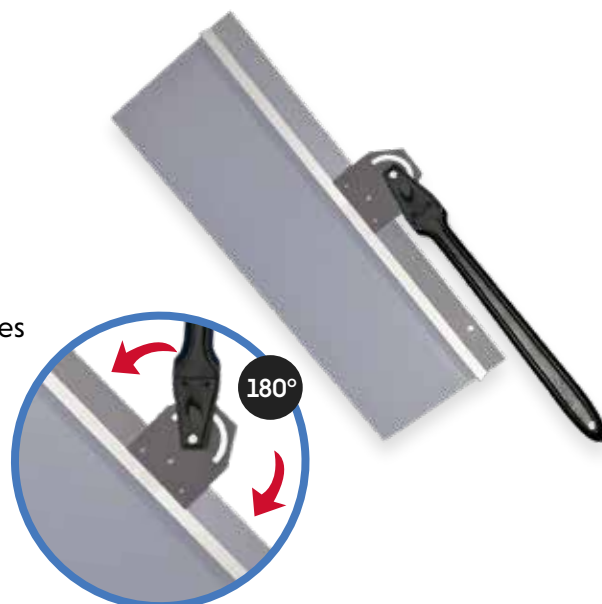

- Unique 180° radius increases reach on left & right allowing you to get into tighter areas while keeping adjustable handle out of your way

Extension

- Attaching an extension pole to the threaded handle makes reaching areas from floor level safer and more efficient

Adjustable Handle

- The 18" handle is made of high-impact plastic, with a standard threaded end for adding extension
- Easily adjust blade angle from left to right by applying pressure
- Locks at any angle
- Smoothly adjusts when needed
- Highly controllable
- Lightweight
- Ergonomic handle

Pro Reach Spray Shields

38024	24" Aluminum Threaded Handle
38036	36" Aluminum Threaded Handle
38224	24" Styrene Threaded Handle
38236	36" Styrene Threaded Handle

17.5" HANDLES

100% Recycled Polypropylene with threaded handle for extension pole

QUICKTRUSS DOOR PAINTING STANDS

- A useful tool that stands doors up securely so both faces and ends can be prepped and painted at the same time

Quicktruss Door Painting Stands

Q300	4 Pack
Q300 BULK	50 Pack

ROLLER CLEANER

- For removing paint or solvent
- Safe rolled edge will not cut wool or other covers
- Offset head keeps paint off your hands and handle
- Available carded (601/48) or in a bulk display box (601/50)

601

SWIVEL POT HOOK

- Pointed hook with swivel joint and snap hook (Import)

608

TOOL AND BRUSH HOLDER

- Adjustable to any angle and fits on any threaded pole
- Threaded multi-purpose to hold paintbrush, wire brush, scraper, etc

230

MISC. WALL COVERING

DOUBLE EDGE BLADES

- 200 double edge razor blades, hardened super-sharp, long-lasting
- Fits Seam Buster (Imported)

51102

SEAM BUSTER

- Double cutting wallpaper knife for vinyl and fabric wall covering
- Does not cut into drywall
- Uses double-edged blade

51101

PASTE SYRINGE

- 1 oz syringe used to inject paste into loose spots & bubbles

20743

RAZOR KNIFE

- Sturdy wood handle, uses standard single edge razor blades (Imported)

69-B

LEXAN SMOOTHING BLADE

- Rigid 9" Lexan blade with wooden handle
- Ideal for use on heavy vinyl wall covering

HT211

SHEARS

- 11" Stainless Steel shears with plastic handle (Imported)

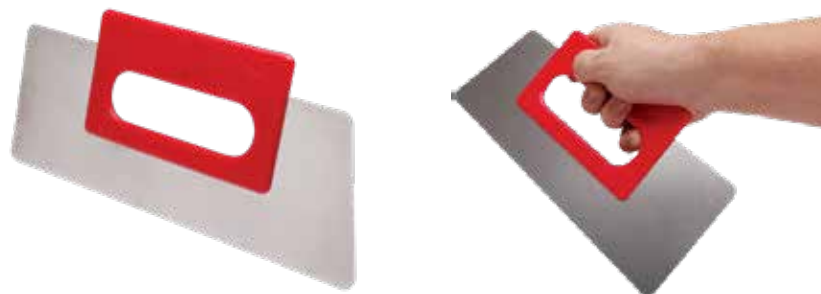

108S-11

STAINLESS VINYL SMOOTHER & TRIMMER

- 11.5" hardened stainless steel blade
- Comfortable grip

51108

VINYL TRIMMER

- Made of cast aluminum for professional use on vinyl material
- Uses standard single edge blade and will give a virtually invisible seam

V30/30

STRAIGHT EDGES

ALUMINUM PLATES

- Heavy-duty aluminum

Aluminum Plates

ZP-6	3" x 6'
ZP-7	3" x 7'

ALUMINUM STRAIGHT EDGES WITH HANDLE

- The easy-grip plastic handle makes this aluminum straightedge ideal for double cutting material on the wall

Aluminum Straight Edge

300-3H	3'
300-4H	4'
300-5H	5'
300-6H	6'

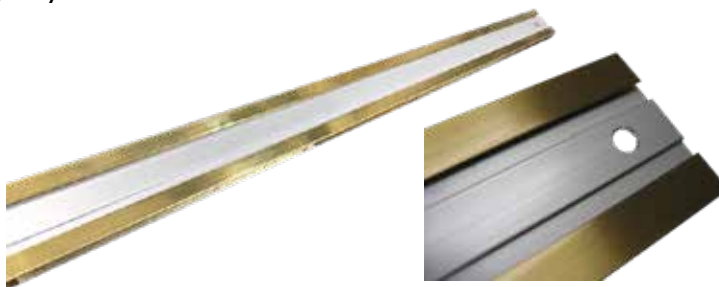

STRAIGHT EDGES

- Always true, accurate, and will not warp
- Use with razor blade or razor knife for trimming vinyl and fabric-backed wall coverings

Aluminum Brass Bound Straight Edge

400-6	6' with track
--------------	---------------

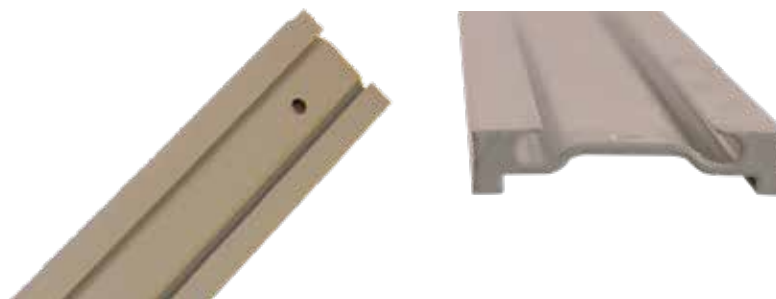

Aluminum Straight Edge

300-3	3' with track
300-4	4' with track
300-5	5' with track
300-6	6' with track
300-7	7' with track
300-8	8' with track

Magnesium Straight Edge

500-6	6' with track
500-7	7' with track

TABLES AND BOARDS

FOLDING PASTE TABLES

- Top and frame are made of clear basswood securely glued and stapled together
- Hardwood legs, reinforced with steel brace spreaders, fold easily when not in use
- Equipped with straightedge rests
- Tables are 33" high, and tops are 5/8" thick basswood
- Available in 5' and 6' lengths by 24" or 32" widths
- Includes carrying handle (tools not included)

12" closed, 24" open

30-6		6' table
30Z-6	Aluminum Plate	6' table

16" closed, 32" open

35Z-5	Aluminum Plate	5' table
36-6		6' table
36Z-6	Aluminum Plate	6' table

(Z) Tables have a 3" wide flush-mounted, aluminum plate along top edge for trimming wall covering

PASTE BOARDS

- Made of clear basswood which, over the years, has proved to be the finest wood for this purpose
- All have tongue and groove batten ends, doweled connections

Doweled - (3) 11" boards per set = 33" wide

12-3-5	1/2" x 5' set
12-3-6	1/2" x 5' set
58-3-5	5/8" x 5' set
58-3-6	5/8" x 6' set
58-3-7	5/8" x 7' set
34-3-5	3/4" x 5' set
34-3-6	3/4" x 6' set
34-3-7	3/4" x 7' set

Doweled - (4) 10" boards per set = 40" wide

34-4-6	3/4" x 6' set
---------------	---------------

PAPERHANGING OUTFITS

Professional Paperhanging package contains:

- Basswood Boards 3/4" x 11" doweled (3 each = 33" wide)
- Non-Skid Trestles (1 pair)
- Aluminum Straightedge (1 each)
- Wood Yardstick (1 each)
- Paste Board Clamps (1 pair)

Paperhanging Outfits

315-5	5'
316-6	6'
317-7	7'

NON-SKID PAIR TRESTLES

- Made of hard maple
- Height adjustable from 30" to 35"
- Equipped with straightedge rests
- All metal parts bright zinc-plated and rubber-tipped legs
- Top rail has corrugated rubber strip morticed into wood to keep boards from slipping

Non-Skid Trestles

15NS	36" top
15NS40	40" top

PASTE BOARD CLAMPS

- Bright plated steel, designed to hold paste boards, straightedge, trestles, and yardstick
- Includes clamps for 3 boards, pair

PASTE MACHINES

PASTE-MATE HEAVY-DUTY PASTE MACHINES

- Manual, gear-driven pasting machine for heavier materials up to 62" wide
- Rolling Stand, adjustable in height with 4" industrial locking casters
- Stainless steel tank with two removable and three fixed rollers
- Paste roller is hard coat anodized for ultimate protection
- Use with vinyl, grasscloth, string, burlap, suede, & more
- Legs fold under machine for easy transport
- Has a drain plug for quick clean-up

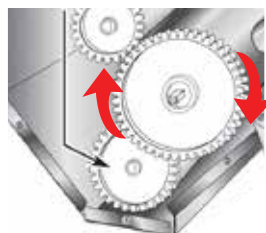

Booking Table and Transport Shelf sold separately

Pasting Machines

50401	B540-HD 40" Paste Machine complete with rolling stand and counter #51114
50621	B562-HD 62" Paste Machine complete with rolling stand and counter #51114

Technical Support, Replacement Parts and Repair Services are also available by calling 1-800-621-4516

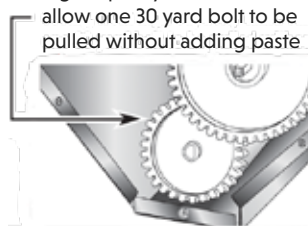

Gear-driven rollers provide consistent, even distribution of paste roll after roll

Stainless steel paste adjustment roller allows better control over the amount and flow of paste which prevents adhesive from touching or staining the face of the wall covering

Exclusive pick-up roller pulls paste efficiently, evenly, from high capacity tank. Tank will allow one 30 yard bolt to be pulled without adding paste

BASSWOOD BOOKING TABLES

- Made of Basswood, 3/4" x 11" wide x 2"

Pasting Machine Tables

540BT	40"
562BT	62"

PASTE-MATE ACCESSORIES

- Fiberboard core with 1/4" top-coated Melamine panel
- For storage of 40" or 62" machines (specify size)
- Stores Pasting Machine, rolling stand, and booking table

Paste Mate Storage

51408	40"
51628	62"

Paste Mate Shelves

540TS	40"
562TS	62"

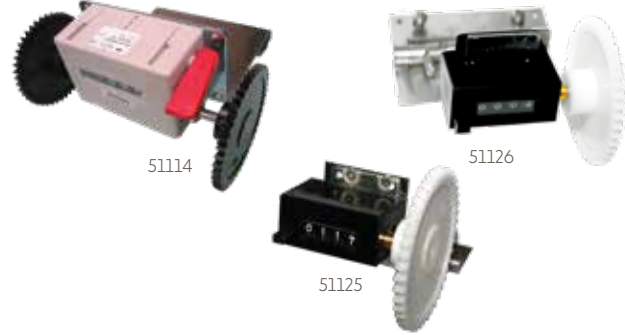

PASTE-MATE ACCESSORIES

MEASURING COUNTERS

Measuring Counters

51114	Heavy-Duty	Two gear wheels and stainless steel bracket, for Paste-Mate machines #50621 and #50300
51125	Quikpaster	Single wheel & bracket complete
51126	Pullbox	Single wheel & bracket complete

PULL BOX

- Economical model pasting machine with simple operation and leak-free design
- Uniform paste distribution can be easily adjusted for more or less paste in center of wall covering
- Applies clay or clear adhesives, and has a drain plug for quick clean-up
- Attaches easily to any paste table
- 56" tabletop model (table **not** included with machine)

(56" Pull Box shown with measuring counter #51126)

51561

QWIKPASTER

- Precision turned, anodized aluminum paste roller sits in stainless steel tank which holds 1½ gallons of paste
- Includes plastic drain plug for easy cleanup
- Knife guide slot on stainless steel lid for exact cuts
- Regulating knobs allows adjustment of paste application
- For clear adhesives or prepasted activator only

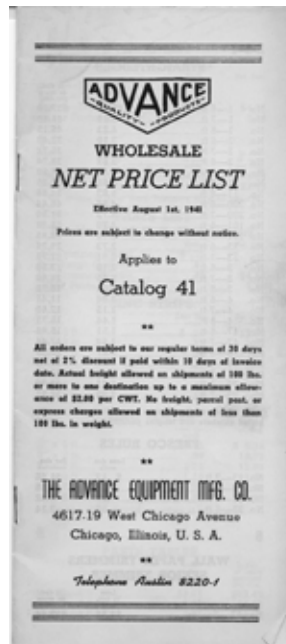

Table Top Qwikpaster

51130	30" Qwikpaster
51131	30" Qwikpaster with counter #51125

ADVANCE HISTORY

It was 1922 in Chicago, a carpenter and contractor August Wedekind was talking to a friend who said that wallpaper was the "coming thing," and that he should start manufacturing tools for that market. Taking his friend's advice, August founded the Advance Equipment Manufacturing Company and began making paste tables, trestles, and paste boards in his garage, selling them to local area paint and hardware stores.

As the business grew and more space was needed August built a 5,000 square foot building on the West-side of Chicago, which is still today's location. The larger space meant additional machinery with which to create more tools and equipment, including items such as straight edges, seam-rollers, casing knives, and wallpaper trimmers. August's son, Bill, joined the company in the early 1940s and invented the drywall taping knife, the first of its kind. The product line grew again to include not only more wall covering tools, but tools for painters and decorators.

The business and Bill's family grew proportionally. He and his wife, Mildred, had four sons and a daughter. The boys (John and Paul) became involved with the company and learned the business. After Bill's death, John, his oldest son, took the helm and now John's children (John R. and DeAnne), have become the fourth generation of Wedekind's to run the company. In 2009, Advance Equipment welcomed Michael Palermo (DeAnne's son), the 5th generation family member to join the Advance team of U.S. manufacturers.

In 1992, with the purchase of the Miramar Company, Advance Equipment began making the Paste Mate wall covering pasting machine, and also added new products to the line. The Advance Equipment line of high-quality American-made tools has been recognized by the industry and is well regarded by professional contractors. Advance Equipment's offerings to the trades have grown larger, facilities and manufacturing technology have expanded, and new innovative products are being developed. Advance Equipment Mfg. Co. sells to a market which includes the United States, and a growing international market. We currently have distributors in Canada, Mexico, France, Japan, South Korea, Australia, Columbia, Costa Rica, and Europe.

In 2022 we celebrate 100 years as a family-owned business. We are proud to have stayed true to our core values of being a US Manufacturer. Our success story would not have been possible without your continued support. We would like to extend our utmost gratitude from our family to yours. We hope to continue working together for many years to come.

Sincerely,
Advance Equipment Mfg. Co.

Paul, John Jr., DeAnne, Michael, John Sr.
