RADIUS SKIMMING BLADE

Model No. SB-10, SB-12, SB-14, SB-16

Benefits:

- Blade shaped to hold mud making it ideal for skimming patchwork or achieving a level five finish
- Use behind finishing boxes for less sanding
- Single hand use for a natural drywall finishing feel
- Prevents fatigue, less bending down to switch tools when skimming or patching
- Achieve the same results as larger smoothing blades

Additional Features:

- Radius corners prevent gouging into mud
- Available in 10, 12, 14, 16" lengths x 3.5"
- Lightweight design prevents fatigue
- Thin flexible blade ideal for smoothing
