- Paste machine models, 50401 and 50621, come with rolling stand and measuring counter.
- Paste machine model 50301 is a table top model only and comes with measuring counter. Does not come with rolling stand.
- Booking table and transportation shelf sold separately.

Size	Catalog No.	Weight
30"	50301	50 lbs.
40"	50401	100 lbs.
62"	50621	150 lbs.

Gear driven rollers provide consistent, even distribution of paste roll after roll.

Exclusive pick-up roller pulls paste efficiently, evenly, from high capacity tank. Tank will allow one 30 yard bolt to be pulled without adding paste.

Stainless steel paste adjustment roller allows better control over the amount and flow of paste which prevents adhesive from touching or staining the face of the wall covering.
